

Fast. Hot. And happening. When you think of destinations, Malad is one of the few that is rising as a stand-alone power centre in itself.

Whether it is places to hang out, or choice in sumptuous eating-out options, whether it is entertainment opportunities or everyday shopping ease, whether it is posh neighborhoods or well-networked travel alternatives, you've got them all here.

Where you need not go looking for your needs, instead they will find their way looking for you
