Experience the Colours of Life

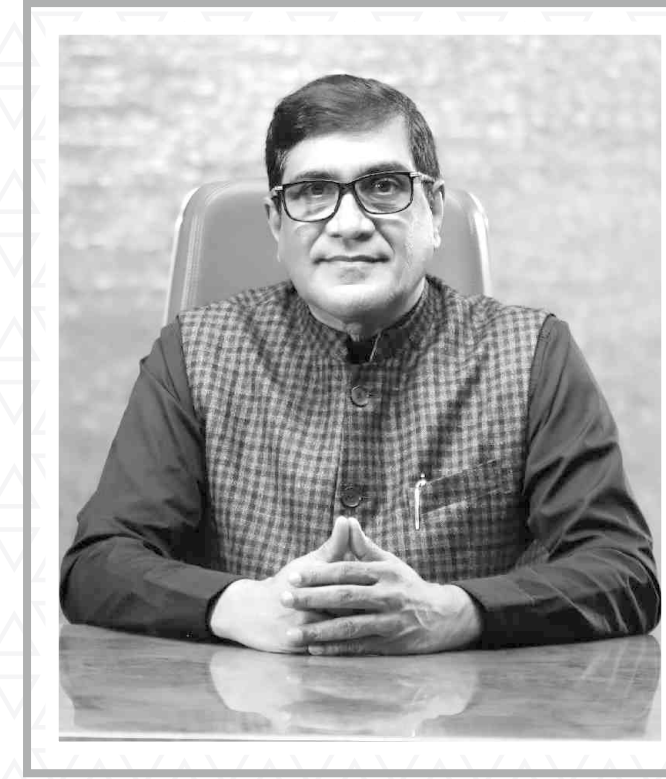

Mr. Mithalal Jain

Mr. Mithalal Jain came to Bhayandar in the year 1963 with a vision to be successful. He entered the construction field in the year 1967, he later joined politics in the year 1972 and flourished as a great leader. Shri Mithalal Jain had also donated 20% of his income during this period to the citizens of Bhayandar. He had spearheaded the campaign of bringing water to Mira Bhayandar when water was being rejected to the people of Mira Bhayandar. At that time the population of Bhayandar was only 3000. In 1970 Bhayandar finally received water after a revolution in which Mr. Mithalal Jain was arrested for protesting. With his tireless work and focused vision for the citizens of Bhayandar, he became Sarpanch of Bhayandar in 1972, in 1982 he became President of District Council, and in 1998 he became Member of Parliament. During his journey, he discovered that Mira Bhayandar needed to be reshaped with good quality buildings and here is when his journey as a builder started.

Failure is not an end of the story, it is just a stop
which helps you to start a new success story with more enthusiasm.

- Mr. Mithalal Jain

Mr. Bharat Jain

Mr. Bharat Mithalal Jain, son of Shri Mithalal Jain and the other partner of Sonam Group is the man behind the successful wheel of Sonam. Mr. Bharat Jain has three mantras to business; quality, quality and quality. Each project of Sonam is technologically more advanced than the previous one, and that is how he has always maintained the cutting edge. He was the first to bring Mivan technology to Bhayandar, and he still has many more advances he will be bringing to future buildings.

Mr. Bharat Jain is also very religious and believes in philanthropy. Among many charities; he maintains the Shree Adeshwar Temple; which provides peace and solitude to many who visit it.

Being busy will result in good outcome,
But being productive will help you to lead your Dreams into reality.

- Mr. Bharat Mithalal Jain

Sonam group was established with the vision to develop Mira-Bhayandar, by providing luxury living and “a promise of a good life”. The company has delivered 270+ buildings in 27 years, where more than 5000 happy residents reside. The mantra for its continuous success is simple: service above and beyond. By maintaining ethical practice and delivering all projects it has started, today Sonam's name stands for everything a customer looks for.

Indradhanush is aesthetically constructed using Mivan technology & concrete from our very own plant, this is important because in India a home is not only bought for the user himself but for the generations to cherish and that is what Sonam Group aims for. Indradhanush stars a sky gym so that you can jog while seeing the beautiful mountains through its massive glass facade. The terrace of both buildings is connected so that residents can enjoy the massive terrace with world-class amenities.
